Professional Summary

Data Science graduate with a B.Tech in Artificial Intelligence and Machine Learning (2026). Skilled in data analysis, machine learning, statistical modeling, data visualization, and predictive analytics. Experienced in building machine learning solutions, performing exploratory data analysis, and developing AI-powered applications using Python, SQL, and modern data science tools. Passionate about leveraging data-driven insights to solve real-world business problems.

Education

Keshav Memorial Institute of Technology
B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)
Graduated: June 2026

Technical Skills

- **Programming Languages:** Python, SQL, Java
- **Data Analysis:** NumPy, Pandas, Exploratory Data Analysis (EDA), Data Cleaning
- **Data Visualization:** Matplotlib, Seaborn, Power BI
- **Machine Learning:** Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Cross Validation
- **Version Control:** Git, GitHub
- **Concepts:** Statistics, Probability, Hypothesis Testing, Predictive Analytics

Projects

AI Generated Text Detection System

- Built an NLP-based text classification system to distinguish AI-generated and human-written content.
- Performed text preprocessing, feature extraction, and model evaluation using Python and machine learning techniques.
- Integrated machine learning predictions into a web application through REST APIs.

Food Delivery Time Estimation Using Machine Learning

- Developed regression models to predict food delivery time using distance, weather, traffic conditions, vehicle type, preparation time, and courier experience.
- Performed data preprocessing, exploratory data analysis, feature engineering, and implemented Multiple Linear Regression, Polynomial Regression, Ridge, Lasso, and Elastic Net models.
- Evaluated model performance using R^2 Score, MAE, RMSE, and Cross-Validation to improve ETA prediction accuracy.

Multilingual Language Translator

- Developed a translation application supporting more than 90 languages using external APIs.
- Integrated speech synthesis functionality to improve accessibility and user experience.
- Designed a responsive user interface using HTML, CSS, and JavaScript.

Certifications

- Deloitte – Data Analytics Job Simulation (2026)
- Accenture – Technology Consulting Job Simulation (2026)
- Lloyds Banking Group – UX Design Introduction Job Simulation (2026)
